

BLANE VALLEY BULLETIN

The Strathblane Community Council News Sheet March 2017 No 50

Enhancing the Quality of Life in our Community

In recent months residents comments raised with the Community Council have highlighted:

Dog Fouling — Dog walkers please remember that you must pick up after your dog. It seems that a number of folk forget to do this. This can result in a fine — but anyone out walking a dog without carrying a bag may also be fined

Public Drinking near the School & Playpark — Many people have expressed concerns about drinking taking place in the school playground and playing fields evidenced by the mess left behind. This is a bye-law offence which, if seen, should be reported to the police and anyone known to be involved should be strongly encouraged to move indoors. There has already been one serious incident — a child requiring 14 stitches after falling on a broken bottle on the pump track.

Speeding & Parking— Whilst we recognise that most perpetrators will live outwith our community speeding remains a serious concern especially on the Campsie Road and Station Road. Whilst we wait for work to narrow the bridge on Station Road please slow down for the safety of all road and path users. If you do need to drive to the Coop or to pick up children from school please park with a thought for pedestrians and other road users.

Bins — the bin service is improving at last. The most common reason why bins have not been emptied is that their contents are 'contaminated' by the wrong kind of litter — often thrown in by passers-by. To help the bin-men if you use the pull-out service please make sure your house is clearly numbered.

Proposed Changes to the Planning System — Have your say

The Scottish Government is consulting on significant proposed changes to the Planning system. Comments have to be in by April 4th and anyone with an interest can have their say.

It is proposed to add to the role that Community Councils already have with the aim of “ **making communities central to delivering great places and a force for positive change**”.

Many will be aware, from the recent debate about proposals on Campsie Road, of the importance of the Local Development Plan (LDP). In future the development plan scheme (which states how a plan should be produced) would set out how the local community would be involved in developing proposals for change—LDPs should be prepared AFTER consulting Community Councils.

Community bodies, including Community Councils would be able to register an interest with their local authority if they wish to prepare a local place plan. This sounds good but will communities have access to resources to help us?

We are being asked for views on improving the consultation between developers and our community BEFORE submission of certain significant planning applications like the Campsie Road site. Interestingly if a site is brought forward which is not in the LDP, the local authority will (must) actively involve us in setting out further ways of consulting the community.

Within the wider strategic context we believe that communities are best placed to judge local development needs. In our community we have not behaved as 'nimbys' but continue to try to move development towards serving local needs.

March Community Council Update *from Chair, Margaret Vass*

Our meetings seem to come round fast at this time of year! We spent a lot of time debating the **proposed changes to the planning system** that directly affect us. It all sounds very positive but real support (resources) will be needed to if communities are to be fully engaged.

Turning to **local matters** Old Mugdock Road continues to feature in our discussions for 2 reasons. **Firstly parking around the Coop** where Stirling Council are likely to be introducing parking restrictions to make the area safer while we work jointly with them to achieve new parking spaces.

Secondly we are concerned at the number of **planning applications** still being approved that increase the traffic on the section of the road between Milndavie Rd and Mugdock without any consequential improvement to the road itself. If it was a large development improvement would be insisted upon. The number of individual applications equate to a sizeable development but being individual infrastructure upgrades are not triggered.

We are hoping for an even closer **partnership with Balforn High**. Every pupil council meeting will have a standard item on what is happening in local areas. Next session there will be a prefect with responsibility for communities and 6th Year pupils will be able to gain an award for working in their local community.

Following yet another staffing restructure at **Stirling Council they are gearing up to work closer with communities using new boundaries**. We are Rural South all services including health, police, fire and ambulance will be operating to this boundary. I know

we have heard it all before but there does seem to be a determination to make this work this time. The first task is to improve communication. We wait with baited breath!!

We are about to begin some **joint work with the Council to review all assets within our community**. There will be a series of four workshops involving council service staff and representatives of all the community run buildings.

For this reason we need to change the date of our May meeting to TUESDAY 9th May.

The April SCC meeting is at 7.30pm on Monday 3rd in the Village Club.

Lynne Watson, Team Leader from Stirling Council's Contact Centre, will be there to hear our problems and explain how the Centre works. Please come along and give us your views.

Copy Date for the April BVB is

Tuesday 18th. Please send Calendar items and news for the period up to mid-May to cc@strathblanefield.org.uk
